HP Scanjet G2410 Flatbed Scanner

Scan photos, documents, drawings and more, with this affordable and easy-to-use scanner. Edit, organise and share your scans using HP Photosmart Essential software. Use one-touch buttons to scan and copy with 1200 dpi resolution, 48-bit colour.

The HP Scanjet G2410 Flatbed Scanner is designed for home and business users who want an affordable and easy way to convert documents, photos, drawings and other images into digital files for easy sharing, reprinting and storing.

Capture crisp, clear scans of photos and 3D objects, and turn documents into editable text.
Do even more than you imagined with this versatile and easy-to-use scanner. Get true-to-life results from your photos – ideal for reprints – with 1200 dpi resolution and 48-bit colour. Keep digital records of essential documents or convert documents and articles into text that can be edited using OCR technology. Scan 3D objects too – HP's dual-sensor CCD scanning technology gives you great results on open books and items such as framed pictures, jewellery and mementos.

Scan and copy at the touch of a button and connect easily via USB 2.0.
Enjoy the speed, ease-of-use and convenience of two intuitive one-touch buttons. Place photos or documents under the lid and press scan – it really is that simple. Get easy copying too – just press the copy button to send scans to your printer without needing to use your computer. Connect quickly and easily to your PC or Mac, and transfer scans at optimum speeds with USB 2.0 connectivity.

Edit, organise and share scans with easy-to-use HP Photosmart Essential software.
Make the very most of your photo scans – edit, print, organise and share them using the included HP Photosmart Essential software. Crop, fix and enhance your scans with a range of easy-to-use tools. Let friends and family view, save and order photos – without large attachments or slow downloads – at Snapfish[1], an on-line service of HP. Share full resolution files by attaching photos to emails.

[1] Snapfish availability varies by region.
